

Gut

An International Journal of
Gastroenterology and Hepatology

MARCH 1998 VOLUME 42 NUMBER 3

Leading article

309 Inflammatory bowel disease incidence: up, down or unchanged? *R F A Logan*

Commentaries

312 Oesophageal pain in coronary artery disease *G Ghillebert, J Janssens*

313 Nitric oxide as an antimicrobial agent: does NO always mean NO? *P Vallance, I Charles*

314 Capsaicin sensitivity and epidermal growth factor *H E Raybould*

315 Feeding the inflamed pancreas *C R Pennington*

316 Octreotide in hepatocellular carcinoma *D Shouval*

318 Gastro-oesophageal reflux: does it matter what you eat? *J P Galmiche*

Science alert

320 The alpha-smooth muscle actin promoter: a useful tool to analyse autocrine and paracrine roles of mesenchymal cells in normal and diseased bowel *P K Lund*

Oesophagus

© 323 A prospective study of oesophageal function in patients with normal coronary angiograms and controls with angina *R A Cooke, A Anggiansah, J B Chambers, W J Owen*

© 330 Effect of increasing the fat content but not the energy load of a meal on gastro-oesophageal reflux and lower oesophageal sphincter motor function *R Penagini, M Mangano, P A Bianchi*

Helicobacter pylori

© 334 *Helicobacter pylori* is killed by nitrite under acidic conditions *R S Dykhuizen, A Fraser, H McKenzie, M Golden, C Leifert, N Benjamin*

338 Major virulence factors, VacA and CagA, are commonly positive in *Helicobacter pylori* isolates in Japan *S Maeda, K Ogura, H Yoshida, F Kanai, T Ikenoue, N Kato, Y Shiratori, M Omata*

Stomach

© 344 Role of capsaicin sensitive nerves in epidermal growth factor effects on gastric mucosal injury and blood flow *J Y Kang, C H Teng, F C Chen, A Wee*

351 Oxidative DNA damage accumulation in gastric carcinogenesis *F Farinati, R Cardin, P Degan, M Rugge, F Di Mario, P Bonvicini, R Naccarato*

Small intestine

357 Increased immunoglobulin G production by short term cultured duodenal biopsy samples from HIV infected patients *T Schneider, T Zippel, W Schmidt, G Pauli, U Wahnschaffe, S Chakravarti, W Heise, E O Riecken, M Zeitz, R Ullrich*

- 362 Prevalence and clinical features of selective immunoglobulin A deficiency in coeliac disease: an Italian multicentre study *F Cataldo, V Marino, A Ventura, G Bottaro, G R Corazza, and the Italian Society of Paediatric Gastroenterology and Hepatology (SIGEP) and "Club del Tenue" Working Groups on Coeliac Disease*
- 366 Focal reduction of villous blood flow in early indomethacin enteropathy: a dynamic vascular study in the rat *D A Kelly, C Piasecki, A Anthony, A P Dhillon, R E Pounder, A J Wakefield*

Inflammation

- 374 Mucosal subepithelial binding sites for the bacterial chemotactic peptide, formyl-methionyl-leucyl-phenylalanine (FMLP) *P Anton, J O'Connell, D O'Connell, L Whitaker, G C O'Sullivan, J K Collins, F Shanahan*
- 380 Leucocyte endothelial cell adhesion in indomethacin induced intestinal inflammation is correlated with faecal pH *H Arndt, K-D Palitzsch, J Schölmerich*
- 387 Peripheral arthropathies in inflammatory bowel disease: their articular distribution and natural history *T R Orchard, B P Wordsworth, D P Jewell*
- 392 Crohn's-like reaction in diverticular disease *A Gledhill, M F Dixon*

Nutrition and metabolism

- 396 Gut barrier function in malnourished patients *F K S Welsh, S M Farmery, K MacLennan, M B Sheridan, G R Barclay, P J Guillou, J V Reynolds*
- 402 Expression of arylamine *N*-acetyltransferase in human intestine *D Hickman, J Pope, S D Patil, G Fakis, V Smelt, L A Stanley, M Payton, J D Unadkat, E Sim*

Motility and functional disorders

- 410 Effect of the nitric oxide donor, glyceryl trinitrate, on human gall bladder motility *R Greaves, J Miller, L O'Donnell, A McLean, M J G Farthing*
- 414 Functional gastrointestinal disorders: psychological, social, and somatic features *E J Bennett, C Piesse, K Palmer, C-A Badcock, C C Tennant, J E Kellow*

Endoscopy

- 421 Diagnostic yield of push-type enteroscopy in relation to indication *B Landi, M Tkoub, M Gaudric, R Guimbaud, J P Cervoni, S Chaussade, D Couturier, J P Barbier, C Cellier*

Pancreas

- 426 Cytochrome P4502E1 is present in rat pancreas and is induced by chronic ethanol administration *I D Norton, M V Apte, P S Haber, G W McCaughan, R C Pirola, J S Wilson*
- © 431 Compared with parenteral nutrition, enteral feeding attenuates the acute phase response and improves disease severity in acute pancreatitis *A C J Windsor, S Kanwar, A G K Li, E Barnes, J A Guthrie, J I Spark, F Welsh, P J Guillou, J V Reynolds*
- 436 Secretory immunoglobulin A in pancreatic juice and pancreatic tissue of patients with chronic pancreatitis *J Emmrich, M Seyfarth, P Conradi, F Plath, G Sparmann, M Löhr, S Liebe*

Liver

- © 442 Treatment of hepatocellular carcinoma with octreotide: a randomised controlled study *E Kouroumalis, P Skordilis, K Thermos, A Vasilaki, J Moschandrea, O N Manousos*

- 448 **Letters to the editor Book review Notes Corrections**

Cover illustration: Direct staining with FMLP-Lys-FITC of an unfixed, cyrostat section of colonic mucosa showing subepithelial location of binding sites. (From the paper by Anton *et al*, this issue, pp374-9.)
